Full, clear vision and not a gram too much on your face – that is what you get with the DYNAFIT Eyewear Collection. It rounds out the system perfectly. Our eyewear protects your eyes not only from UV rays but also from dust, dirt, and bugs. For long-lasting protection and full clear vision, you should clean your glasses regularly.

NICE TO KNOW

- ▶ DYNAFIT Eyewear is made 100 % in Italy – from the casting mold to the lenses.
- ▶ You can also use the pouch as a cleaning cloth.
- ▶ Never hold your glasses under running water, and do not use alcohol for cleaning.

CLEANING / DRYING

- ▶ Clean the lenses with a moist microfiber cloth or use a special lens spray.
- ▶ Wipe the lenses with the glasses or goggles pouch or another soft cloth to remove excess moisture.
- ▶ Do not clean or dry the lenses with paper products since these can damage the lenses or the coatings. Alternatively, you can also simply let them air-dry.
- ▶ Never hold your glasses under running water, and do not use alcohol or other harsh agents for cleaning.

CARE

Immediately after activity

- ▶ Fingerprints, light dirt, and sweat can be wiped off with the included pouch or another soft cloth.
- ▶ Heavy dirt should be removed carefully with a moist cloth.
- ▶ Always store your eyewear after use or during transport in the included bag.

Regularly

- ▶ Check your eyewear regularly for scratches or cracks. If you find damage, you should have the lenses traded out or should replace the glasses.
- ▶ In our online shop, you can find the appropriate [replacement lenses](#) for your eyewear.

STORAGE

- ▶ Never place your glasses or goggles with the lenses down.
- ▶ Ideal for storing your eyewear is a cool, dry place protected from direct sunlight and heat.

SERVICE

Repair and replacement parts

We offer repair services and replacement parts for many products. Our credo is: Repair, don't toss. Find out more from your DYNAFIT retailer or our [customer service](#).
